ASL now automatically performs the end of year filing for you from your final pay run of the year files. We will also print the P60's, if required. Fill in the relevant section of the above form or include your request when you send us the last set of files for 2017-18. Do not perform the end of year clear down until we have confirmed receipt of your data. Always retain your own copy until HMRC have formally accepted your filings. If necessary, we can provide the media required to copy the data. Please confirm your requirements or simply continue to email the files to RTI@accountant.uk.com
